

# The Watchorn

January 2008

Holiday Harbor/Cabrillo Marina

Thanks to all who have dropped by or called to send their best wishes to *Dock Holiday*. Your kind thoughts (and cards) are the best medicine he could receive and help enormously. On behalf of *Dock Holiday*, let me just say, "Many thanks for showing your care and concern!"

*Dock Holiday's Side-Kick*

## It's Official...We are a Clean, Green Marina

If you happened to drop by our Boaters' Lounge on December 6<sup>th</sup> and wondered why our Clean Marina Team was holed up with reams of documentation spread out before us, it's because we were undergoing our much-awaited Clean Marina California Inspection and Review. Well, I don't really mean to brag, but folks, we dazzled 'em. As a result, the Marina Recreation Association representative and the Review Team certified both of our marinas, Holiday Harbor-Cabrillo Marina and Holiday Harbor-Wilmington, as Clean Marinas! This distinction means that we provide our boaters with an environmentally clean marina facility, do our best to protect the waterways from pollution and that the day-to-day activities and operations enhance the environment and the water quality. When you see us flying our "Clean Marina" burgee and flag and displaying our certificate and decals, know that we do it with great pride.

## Real News

- Thank you to all who attended our yearly Holiday Cheer Party last month and allowed us to thank YOU for being part of our Holiday Harbor family. Each year the attendance seems to surge and we actually like it that way. We hope you left feeling very much appreciated... 'cause you are!
- Did you notice the enclosed **Tenant Update Form** in this month's mailing? No, it is not to be used for scratch paper. It may take a minute of your time to complete but anyone who has ever received a courtesy call from our office regarding a situation with their boat (i.e. bilge pump running, lights on, alarm sounding, etc.), understands the importance of providing current emergency contact numbers. If you'd like to include an e-mail address for good measure, that would suit us just fine.
- Anyone up for a Friday night at the Comedy and Magic Club in Hermosa Beach? We're up for organizing it if you're willing to join us. Last time we offered a Holiday Harbor Comedy night we had a great time but I do remember having sore cheek muscles (on my face) when we left. If you're interested, give Monica a call no later than January 15<sup>th</sup>.
- If you're in need of a place to stash those extra holiday gifts now that your home or boat is pretty much bursting at the seams, we can help. There currently are some locker units available in our locker storage area. Just give Kyle a call (310.833.4468) or drop by his office so he can introduce you to your new best friend, your locker.
- Have you noticed the weather station we have at our Marina office? The readout is right inside the window looking into Kyle's office. The next time you call and ask, "What's the wind like down there?," we won't give you a guesstimate but a definitive – and accurate – answer (assuming we can read the dang thing!).
